Subject: Thank you!!!

Holli,

I would like to thank you for your time and energy dedicated to the exceptional open house event last night at the Florida College of Integrative Medicine. I am very impressed by the amount of effort and details put into the event. I now understand how everything works from the admission process to the graduation. I was very delighted by the amazing friendly professional culture that exists as well as the respect everyone has for each other. The president of the college even came to the open house, WOW!! That really means a lot how much he care about the organization, his coworkers, the profession and us J

To me it was rewarding to see the faces and body language of the students. They did an outstanding job by sharing all of their knowledge and by answering questions from all visitors. That was a real good lesson about transformation, passion, dedication and commitment. To me this experience was a visual connection of the transformation that I am about to receive.

I really enjoyed the whole experience, the amount of preparation and effort put in was really appreciated.

Thank you all and please keep up the good work!!
